- This 2-hour CE course includes a PowerPoint lecture on the history, scientific research, strategies of fascial bodywork and a demonstration of myofascial techniques. This course is based on the work of Dr. Ida P. Rolf. Structural Myofascial bodywork includes a variety of advanced fascial therapy techniques such as functional assessments, rocking, active and passive client movement, stretching and the fascial scoop. This plays a major role in solving myofascial pain and dysfunctional posture and mobility patterns.
